

The Travel Vision TVA range of popup/clamshell satellite antennas completes our range of satellite TV antennas. Also equipped with the very latest DVB-S2 satellite technology and therefore perfectly suited for satellite reception in the UK or Europe. Firmware and tracking frequencies are easily updateable via USB. This ensures that all Travel Vision antennas remain future proof. The TVA's also have a comprehensive European satellite library this includes Astra 1 19E, Astra 3 23E, Astra 2 28E, Hotbird 13E, Hispasat 30W and Thor 0.8W so you'll always have access to a wide choice of free to air satellite TV wherever you plan to tour.

The Travel Vision TVA systems are available in two versions. Both use a high gain parabolic dish the TVA-65 with a 65cm and the TVA-80 an 80cm dish. The Travel Vision TVA 80 is also equipped with a twin LNB for multiple receivers or a single PVR satellite recorder like Sky+ to record one show whilst watching another. The TVA-80 also has automatic LNB auto-skew feature ensuring optimal signal reception when touring throughout Europe.

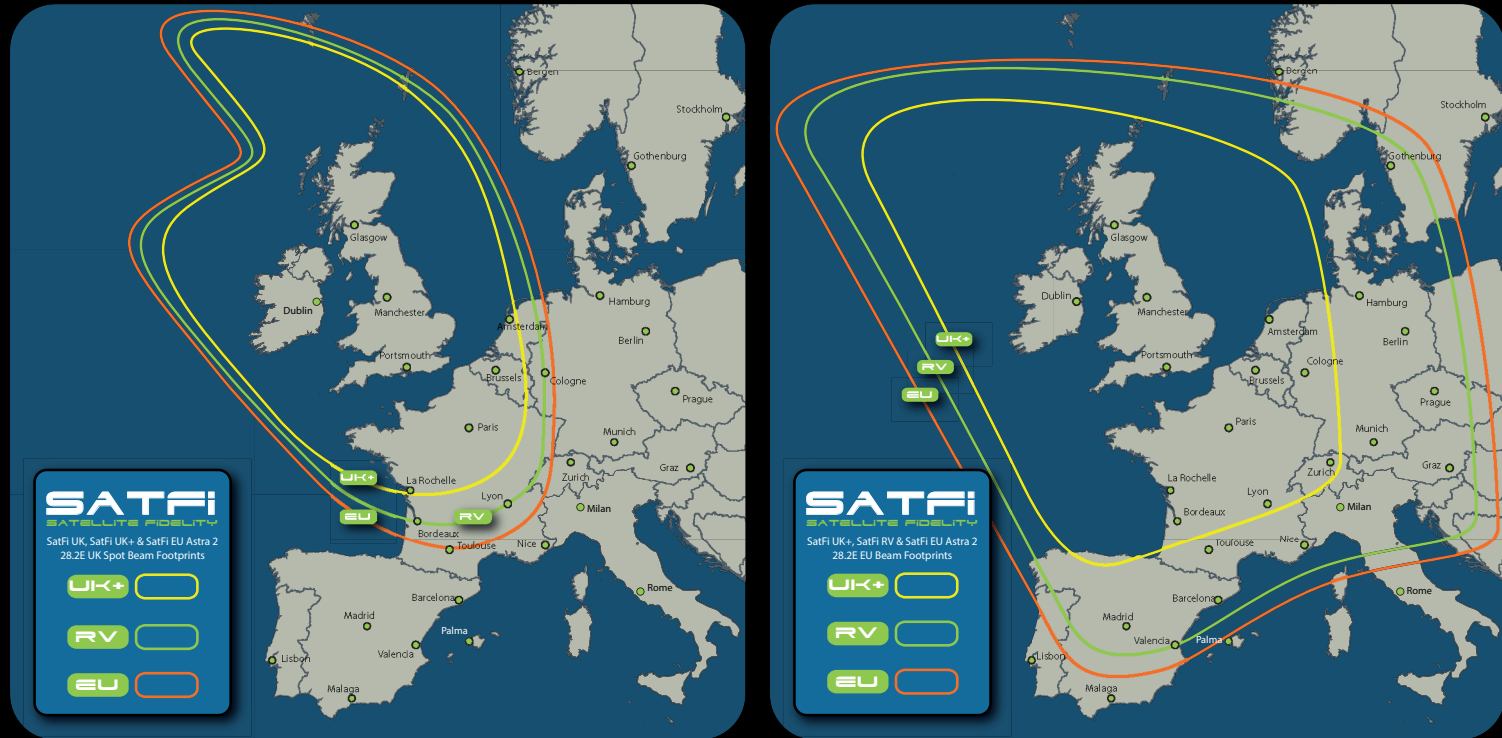

Model	Coverage			Features			Dimension/Weight
	UK	EU	EU+	Sats	Auto-skew	Twin LNB	
Travel Vision TVA-65	✓✓✓	✓✓	✓✓	6	No	No	L 87cm W 66cm H 19cm
Travel Vision TVA-80	✓✓✓	✓✓✓	✓✓✓	6	Yes	Yes	L 100cm W 82cm H 21cm

✓✓✓ = Excellent, ✓✓ = Good, ✓ = Some

So how do we know that our antenna's performs so well?

We are so committed to making sure you get what you want we regularly travel through Europe with our satellite domes and antennas and test where they can and can't work. This ensures we give the very best and accurate reception advice and to our knowledge no other satellite dome and antenna manufacturer goes to these lengths.

We are not only convinced by the performance that our domes and antennas can offer. We are also certain you'll be satisfied by the reliability. That is why we stand by our 3 year warranty for our SatFi domes* and 2 years on the Travel Vision antennas (*subject to T&C's and installation by one of our trained and approved dealers). Full warranty details and where to buy can be found at www.satfi.co.uk

UK+

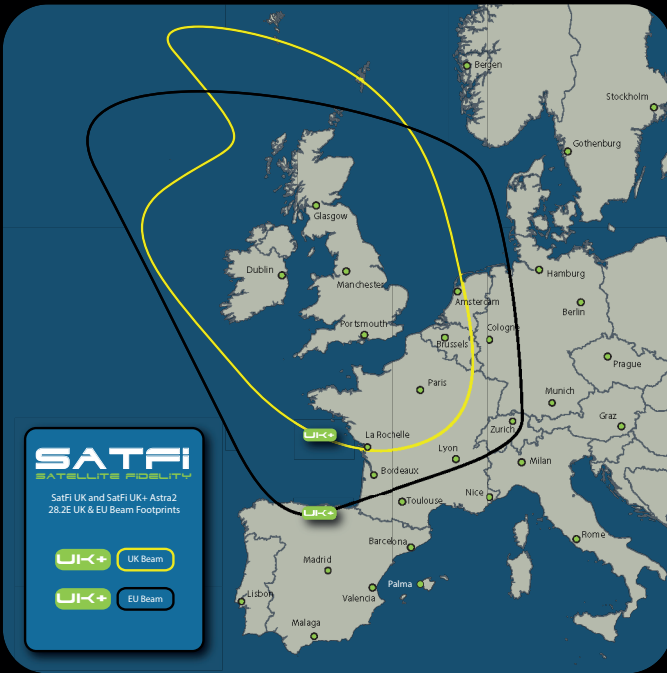

RV

EU GO

The SatFi UK + is the latest to join our range of slimline high performance automatic satellite TV domes. This powerful and compact dome would not look out of place on any caravan, motorhome or panel van conversion. Its twin feed LNB gives you the versatility of either a single satellite receiver with PVR (Sky+) or two separate satellite receivers for simultaneous viewing. You will also benefit from the new wake on demand feature; turn on your satellite built-in TV or separate satellite receiver and the SatFi UK+ senses the signal allowing you to sit back and enjoy hassle free satellite TV. No other dome other than our SatFi EU has this amazing feature that will work with the vast majority of satellite built-in TV's or standalone satellite receivers available today.

Whether you are watching your favourite BBC and ITV television programmes in the UK, or heading further afield and need Sky services, you cannot beat the new SatFi UK + for size and performance.

SatFi UK+ Specification and Features

- Simple operation with unique power on demand feature compatible with most satellite receivers or satellite built-in TV's.
- Ultra slimline and low profile design using the very latest high gain Cassegrain antenna.
- Future proof, firmware and tracking frequencies easily updateable via USB.
- Multi satellite capable.
- DiSEqC controlled automatic satellite switching.
- Optional surface mounted controller.
- Twin LNB for use with 2 TV's or PVR receivers (Sky+/Freesat+)
- 2 year RTB warranty additional 3rd year available subject to terms and conditions.

SatFi UK+ Twin	✓✓✓	✓✓		6	No	Yes	✓✓✓	H 26cm D 70cm W 9kg

✓✓✓ = Excellent, ✓✓ = Good, ✓ = Some

The SatFi RV is our very popular mid-range satellite dome. With its large high gain parabolic dish giving you extended reception range, the SatFi RV is the ideal choice for anyone travelling outside of the UK and still wanting the flexibility to access their favourite satellite TV programmes while touring the continent. The SatFi RV also comes with a Quadsat satellite library that includes the most popular European satellitres (Astra 2 28E, Astra 1 19E, Hotbird 13E and Eutelsat 5W) so you'll always be able to access a vast choice of additional FTA (Free to Air) satellite TV channels throughout Europe.

The SatFi RV is available with a choice of either a single LNB for use with a single TV or twin LNB that will allow you to either have two separate TV or a PVR satellite receiver like Sky+ to record one show whilst watching another.

The SatFi RV has a full size dome but still remains sleek in appearance. We also know weight is important so the SatFi RV is built to be as lightweight as possible. Weighing just 13kg and with a height of only 36cm no other comparable satellite dome can match the RV.

Specification and Features

- Fully automatic high performance EU reception capable dome.
- Aesthetically modern profile design.
- Combined controller and receiver with Quadsat multi satellite reception.
- Single and twin LNB models available.
- Future proof easily updateable.
- All weather operation with enclosed and protected electronics and mechanics.
- 2 year RTB warranty additional 3rd year available subject to terms and conditions.

The SatFi EU gives a master class in performance, features and sets the benchmark for satellite dome technology. The first full size 36cm dome to use a high gain Cassegrain reflector and coupled with GPS aided LNB autoskew the SatFi EU ensures the best possible satellite TV reception. Using the very latest in DVB-S2 satellite tracking the SatFi EU is at the forefront of satellite dome technology and is easily updateable via USB.

The SatFi EU also comes with our unique wake on demand feature and automatic DiSEqC satellite switching making multi satellite viewing totally hassle free. Finally we have the SatFi Go which carries all the features of the EU but is fully in-motion for live TV and satellite radio on the move, so if you need to keep the kids occupied or just want to listen to the radio the Go gives the ultimate versatility.

All our SatFi satellite domes come with a standard two year warranty with an additional third year if supplied and installed by one of our trained and authorised installers.
